

## *Critical Information Summary* **NBN Fibre to the Premises (FTTP) Battery Backup**

### **Information about the Service**

This image is of NBN **Fibre to the Premises (FTTP)** equipment installed with the optional battery backup unit (on the right).

Without the battery backup unit, Internet Data and any Telephone services (**including calls to Emergency Services**) will cease to operate during power outages or if the unit is switched off at the power outlet.

The battery backup unit will **NOT** be optional if there is a requirement for medical or security alarms.

In pristine condition, the backup battery should maintain the NBN link for approximately 5 hours.

When installed, it is the Customers responsibility to **maintain, replace or remove** the battery.

The main unit has battery health indicators and an accompanying manual will have details of how to remove/replace the battery. Replacement battery retailers are listed at this site:

<https://www.nbnco.com.au/learn-about-the-nbn/network-technology/fibre-to-the-premises-explained-ftp/battery-back-up-service-information.html>.

### **Other information**

- The battery backup unit will **only** power the NBN connection equipment. It will **NOT** power any customer equipment connecting to the service eg routers or cordless phones.
- If you have a requirement for these external devices to remain powered on during outages, you should organise a separate battery backup (UPS) for these devices.
- If these devices are not on battery power, to make phone calls during a power outage, you will need to use a **standard corded telephone** (which does not require power) connected to a UNI-V port telephone service you may have had provisioned. You should consider this information carefully - particularly in relation to making Emergency Calls.
- **Internet Information Group will order the installation of battery backup units unless specifically advised not to.** At this point there is no additional setup charge for this service.

### **Customer support**

Email: [support@iig.com.au](mailto:support@iig.com.au)

Phone: 07 3193 2300

### **Complaint handling**

If you have complaint about your service or a dispute with IIG, email support@iig.com.au with a detailed explanation of the problem so we can assist you to find a resolution.

### **Financial Hardship Assistance**

We understand that sometimes, events in your life may impact your ability to meet your financial obligations. We offer a number of options to assist in these circumstances. A copy of IIG's Financial Hardship Policy can be found here [www.iig.com.au/pdf/document/financial\\_hardship\\_policy](http://www.iig.com.au/pdf/document/financial_hardship_policy).
